

Sentinel Public Schools

COVID-19 Testing Guidelines

1. Only students that are quarantined because of close, sustained contact with a confirmed positive case of COVID-19 will be tested.
2. Students may be tested 48 hours before their seven day quarantine period. This would be on day 5, 6 or 7 of their quarantine.
3. A negative test result does not shorten the quarantine below 7 days. A 7 day quarantine is the minimum.
4. Students must have had NO symptoms on all previous days of their quarantine to be eligible for a rapid test.
5. All rapid tests must be scheduled prior. To make an appointment, call 580-393-4750 to talk to Nurse Lankford or you can email her at djlanford@sentinel.k12.ok.us
6. Appointments will be available from 10am-11am and 1pm-2pm each day school is in session.
7. All students must have a signed permission slip to be administered a rapid test. If a student shows up for a scheduled rapid test with no permission slip, they will be asked to leave and must schedule a new testing appointment. Permission slips are available at www.sentinel.k12.ok.us or in the container by the drop box located by the circle drive.
8. Students will enter the building only for the administering of the test. They will wait for the results outside of the building in a vehicle. Results are available 15 minutes after the test. Mrs. Lankford will come outside to communicate the results.
9. Students must wear a mask during the test. Mrs. Lankford will instruct the student when to drop it down below their nose so that she can get the needed nasal swab.
10. Students must stay behind the provided plexiglass barrier during the test.
11. Only the student that is getting tested will be allowed in the building.
12. Be on time for your appointment. This service is being offered as a convenience to students and parents. Please be respectful of Mrs. Lankford's time.

Respectfully,

Sentinel Administration
